Cerro Grande Mining Corporation

Notes to the Consolidated Financial Statements

December 31, 2016 and September 30, 2016.

(Expressed in thousands of U.S. dollars, except share and per share amounts)

1. Nature of the Company and Going concern assumption

Cerro Grande Mining Corporation (the Company or CEG) and its subsidiaries is a mining, exploration and development company which produces gold, silver and copper, with operations mainly in Chile. The Company was incorporated under the Canada Business Corporations Act, and its Common Shares are listed on the Canadian Securities Exchange (“CSE”) trading under the symbol “CEG” and on the OTCQB trading under the symbol CEGMF. The Company is domiciled in Canada and the address of its records office is 1 King Street West, Suite 4009 Toronto Ontario M5H 1A1, Canada. The registered office is Royal Bank Plaza, South Tower, 200 Bay Street Suite 3800, Toronto, ON M5J 2Z4, Canada.

The company’s only significant subsidiary is Compañía Minera Pimentón (Pimentón).

These consolidated financial statements have been prepared on a “going concern” basis which contemplates that the Company will continue in operation for the foreseeable future and will be able to realize its assets and discharge its liabilities in the normal course of business. As at December 31, 2016, the Company has a negative working capital of \$8,059 (September 30, 2016 – negative \$10,252).

While the Company has operations generating revenue it continues to be reliant on financing from related parties to finance its operations and working capital. While the Company continues to seek to reduce operating costs, the certainty of future profitability expectations and availability of sources of additional financing if required in the future cannot be assured at this time and accordingly, these material uncertainties cast significant doubt about the Company’s ability to continue as a going concern. The consolidated financial statements do not include adjustments to the carrying values and classifications of recorded assets and liabilities and related revenues and expenses that would be necessary should the Company be unable to continue as a going concern and those adjustments may be material.

2. Basis of presentation

a. Statements of compliance

These unaudited condensed interim consolidated financial statements are expressed in thousands of US dollars and have been prepared in compliance with International Financial Reporting Standards (“IFRS”) as issued by the International Standards Board (“IASB”) including IAS34 Interim Financial Reporting. The condensed interim consolidated financial statements should be read in conjunction with the Company’s annual consolidated financial statements for the year ended September 30, 2016 which have been prepared in accordance with IFRS as issued by the IASB.

The accounting policies and the application adopted are consistent with those disclosed in Note 3 to the Company’s consolidated financial statements for the year ended September 30, 2016 except as described below.

The preparation of condensed interim consolidated financial statements requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets, liabilities and expenses.

These condensed interim consolidated financial statements were approved by the Board of Director on February 16, 2017.

b. Changes in accounting standards and recent accounting pronouncements

The following new standards, amendments to standards and interpretations are not yet effective and have not been applied in preparing these consolidated financial statements. Those which may be relevant to the Company have been set out below.

- IFRS 15 Revenue from Contracts with Customers (“IFRS 15”) was issued to clarify the principles for recognizing revenue. IFRS 15 establishes principles to address the nature, amount, timing and uncertainty of revenue and cash flows arising from an entity’s contracts with customers. IFRS 15 is effective for annual periods beginning on or after January 1, 2018. The Company has not yet assessed the impact of this standard on the consolidated financial statements.
- IFRS 9 Financial Instruments replaces the current standard IAS 39 Financial Instruments: Recognition and measurement, replacing the current classification and measurement criteria for financial assets and liabilities with only two classification categories: amortized cost and fair value. IFRS 9 is effective for annual periods commencing on or after January 1, 2018 with early adoption permitted. The Company has not yet assessed the impact of this new standard, if any, on the consolidated financial statements.

*Non-current assets are tested for impairment when events or changes in circumstance suggest that the carrying amount may not be recoverable. During the quarter ended September 30, 2015 the Company recorded an impairment charge of \$6,556 related to the Pimenton project, primarily as a result of the decrease in the grade and future gold and copper price. The recoverable amount was calculated using the value-in-use method, which is the expected present value of future cash flows from the asset, using a pre-tax discount rate of 7.9%. The remaining \$181 impairment charge for that year relates to the Til Til project and represented a full write down of the mining properties.
