1. FORWARD LOOKING STATEMENTS

This management’s discussion and analysis contains or refers to forward-looking statements. All information, other than information regarding historical fact that addresses activities, events or developments that the Company believes, expects or anticipates will or may occur in the future is forward-looking information. Forward-looking information can often be identified by forward-looking words such as “anticipate”, “believe”, “expect”, “plan”, “intend”, “estimate”, “may”, “could”, “potential”, “should” “will” or similar words suggesting future outcomes, or other expectations, beliefs, plans, objectives, assumptions, intentions or statements about future events or performance.

The forward-looking statements in this management’s discussion and analysis reflects the current expectations, assumptions or beliefs of the Company based on information currently available to the Company. With respect to forward-looking statements contained in this

management discussion and analysis, the Company has made assumptions regarding, among other things, the Company's ability to generate sufficient cash flow from operations and capital markets to meet its future obligations, the regulatory framework in Chile, with respect to, among other things, permits, licenses, authorizations, royalties, taxes and environmental matters and the Company's ability to continue to obtain qualified staff and equipment in a timely and cost-efficient manner to meet the Company's needs.

Forward-looking statements are subject to a number of risks and uncertainties that may cause the actual results of the Company to differ materially from those discussed in the forward-looking information, and even if such actual results are realized or substantially realized, there can be no assurance that they will have the expected consequences to, or effects on, the Company.

Any forward-looking information speaks only as of the date on which it is made and, except as may be required by applicable securities laws, the Company disclaims any intent or obligation to update any forward-looking information, whether as a result of new information, future events or results or otherwise. Although the Company believes that the assumptions inherent in the forward-looking information are reasonable, forward-looking information is not a guarantee of future performance and accordingly undue reliance should not be put on such information due to the inherent uncertainty therein.

Non-IFRS financial measures

The Company has included certain non-IFRS financial measures in this document. These measures are not defined under IFRS and should not be considered in isolation. The Company believes that these measures, together with measures determined in accordance with IFRS, provide investors with an improved ability to evaluate the underlying performance of the Company. The inclusion of these measures is meant to provide additional information and should not be used as a substitute for performance measures prepared in accordance with IFRS. These measures are not necessarily standard and therefore may not be comparable to other issues

2. OVERVIEW

The Company is an exploration, development and mining corporation focused in Chile.

The Company's only significant subsidiary was Compañía Minera Pimentón (Pimenton), which filed for voluntary bankruptcy on May 31, 2017. The Court approved this bankruptcy filing and named a Liquidator on July 18, 2017.

In accordance with Chilean law, the Court appointed bankruptcy Liquidator has taken possession of Pimenton and of all its assets and liabilities. They are also responsible for all ongoing costs of Pimenton until the successful sale or liquidation of Pimenton.

Any profits or losses incurred by the Liquidator in the bankruptcy process have no impact in these consolidated financial statements as both financial assets and obligations are by law transferred to the Liquidator.

The Company's other projects, which are in various stages of exploration and development in Chile include "Tordillo" and two limestone deposits "Catedral" and "Cal Norte".

3. HIGHLIGHTS

Outlook

The other subsidiaries of CEG, including Compañía Minera Til Til, Compañía Minera Catedral, Compañía Minera Tordillo, Compañía Minera Bandurrias and Compañía Minera Cal Norte are not affected by the bankruptcy of Compañía Minera Pimentón. At this time management is determining the best course of action.

5. EXPLORATION AND DEVELOPMENT PROJECTS

Tordillo

The Company holds mining claims on Tordillo which is located 11.5 kilometers south-southwest of Pimenton and covers an area of 6,632 hectares (16,381 acres). Tordillo is in the early exploration stage and to date the Company has identified several gold/copper vein

structures similar to those at Pimenton and an area of potential porphyry copper mineralization. The preliminary data suggests Tordillo contains the upper part of a deep-seated copper/gold and possibly copper molybdenum porphyry system associated with narrow high grade gold and copper veins which may be widespread and represent a separate exploration target. Tordillo is located in an area of intense exploration activity and was acquired by the Company in 2006.

Subsequent exploration should bring into perspective the vein potential and establish if the porphyry system is large enough to host possible economic copper mineralization. During the quarter ended June 30, 2019, the Company expensed a total of \$nil (2018 - \$nil) relating to mining property costs and exploration costs on Tordillo.

Bandurrias

During the quarter ended June 30, 2019 acquisition costs of \$nil were expensed (2018 - \$nil).

Limestone deposits

The Company holds interest in two limestone deposits. Lime is used by the Chilean mining industry in processing sulfide copper ores and in heap leaching of gold ores.

The Company's limestone deposits at Catedral and Cal Norte contain high grade limestone which, when calcined, can produce lime that the Company's management believes will qualify for use by the Chilean mining industry. The Company will continue its efforts to become a supplier of lime to the Chilean copper industry, it also strengthens the Company's position as it reviews alternative strategies for the sale, joint venture or spin-off of the Catedral/Rino and Cal Norte limestone properties.

As at June 30, 2019, the Company had contributed a cumulative total of \$4,080 (2018 - \$4,080) to finance a drilling program on Catedral/Rino and complete a preliminary feasibility study for the construction of a 1,320 ton per day capacity cement manufacturing facility on the project as well as a preliminary feasibility study for construction of a 600 ton per day lime kiln on the Catedral property. During prior years the Company had written off \$4,080 in mining properties and exploration costs relating to Catedral/Rino.

As at June 30, 2019, the Company had contributed a cumulative total of \$1,556 (2018 - \$1,556) to Cal Norte, to finance a bankable feasibility study on the project, environmental permitting, and further mine development. Although the Company has incurred sufficient exploration expenditures to maintain the Cal Norte property in good standing, the Company expensed this \$1,566 in prior years as it focused its efforts on the Pimenton gold mine.

6. INVESTING

During the period ended June 30, 2019 the Company invested \$nil (2018 - \$nil) in mining plant, equipment, and mining properties.

7. FINANCING

The Company finances its operations using cash advances by related parties or equity sold to related parties. Due to no production and the negative cash flow both Auromin (a company owned by David Thomson) and Chañar Blanco (a company owned by Mario Hernandez), both Directors and Officers of the Company, have made cash advances to cover the shortfalls.

During the month of November 2014, the Company signed a Gold Loan Debenture for \$100 bearing an annual interest rate of 10%. The principal is to be repaid semi-annually at a gold price of \$1,057 per ounce or higher if the average price during the six month period prior to any repayment date exceeds the agreed price for the equivalent of 15.77 ounces of gold payment.

The outstanding principal at the end of the period is \$17. During the period ended June 30, 2019 repayments of principal of \$nil were made due to lack of funds.

On August 22, 2016 the company issued a second Gold Loan Debenture for \$200 with a maturity date of August 22, 2019. The debenture bears a fixed annual interest rate of 8% on the outstanding principal amount and is payable on a quarterly basis on the 25th day of February, May, August and November of each year. The payment of the principal is semi-annually on February 25 and August 25 of each year plus the difference in the average gold price per ounce in excess of \$1,260 per ounce calculated on 26.455 ounces of gold.

The outstanding principal at the end of the quarter is \$167. During the period ended June 30, 2019 the Company has repaid \$nil of principal due to lack of funds.

8. LIQUIDITY AND CAPITAL RESOURCES

As of June 30, 2019, the Company shows a negative working capital of \$4,168 (2018 - negative \$5,025).

Contractual Obligations	Total	Less than 1 year	1-3 years	Over 4 years
	\$	\$	\$	\$
Accounts payable and accrued liabilities	129	129	-	-
Amount due to related parties	3,847	3,847	-	-
Short-term debt	215	215	-	-
Conditional loan agreement (1)	2,500	-	-	2,500
Tordillo prospect (2)	250	-	-	250
Total Contractual Obligations	6,941	4,191	0	2,750

Note (1). Two officers and directors of the Company hold the non-controlling interest in Catedral. Under an agreement dated November 27, 1996, the Company agreed to provide or cause to provide these officers and directors of up to \$1,250 each or \$2,500 in total. Such loans are to pay their proportionate share of development costs if a bankable feasibility

study demonstrates that the properties can be placed into commercial production, and to fund their combined 50% share of an option payment totaling \$500, which was paid during 1997.

Note (2). As compensation for services rendered in connection with Tordillo, the Company entered into an agreement to pay \$250 within 50 days of first cash flow from the property.

The Company must make an additional capital contribution of \$239 in Cal Norte to earn its 60% equity interest.

The Company has not declared or paid any dividends and does not foresee the declaration or payment of dividends in the near future. Any decision to pay dividends on the common shares will be made by the board of directors on the basis of the Company's earnings, financial requirements and other conditions existing at such future time.

9. OFF-BALANCE SHEET ARRANGEMENTS

There are no off-balance sheet arrangements.

10. RELATED PARTY TRANSACTIONS

The Company has a receivable from the CEO (who is also a director) of \$601 (2018 - \$601) consisting of \$283 (2018 - \$283) of cash advances and two loans totaling \$318 (2017 - \$318). The cash advances and loans bear no interest and have no specific terms of repayment.

As at June 30, 2019, the Company has salaries and expenses payable to the CEO in the amount of \$326 (2018 - \$284), included in due to related parties, which results in a net receivable of \$274 (2018 - \$316).

A company controlled by the Chief Financial Officer of the Company (the "CFO") billed \$19 to the Company for accounting and administration services rendered during the nine month period ended June 30, 2019 (2018 - \$18). Trade and other payables include \$9.

As at June 30, 2019, due to related parties includes cash advances of \$556 from Mario Hernández, who is also a director and officer of the Company (2018 - \$526). The cash advances bear no interest and have no specific terms of repayment.

Due to related parties includes cash advances of \$2,766 from David Thomson, who is also a director and officer of the Company at June 30, 2019 (2018 - \$1,827). The cash advances bear no interest and have no specific terms of repayment.

As at June 30, 2018, the Company owes a total of \$197 (2018 - \$173) to directors for director's compensation. This amount is included in due to related parties.

11. CRITICAL ACCOUNTING ESTIMATES

A summary of the critical accounting estimates are set out below:

Exploration and development costs

Acquisition and exploration costs of exploration properties are expensed as incurred. Once resource potential has been established as defined by a National Instrument (NI) 43-101 report future costs are then capitalized. Upon reaching commercial production, these capitalized costs are transferred from exploration properties to mining properties, plant and equipment as mine development costs and are amortized into operations using the units of production method, based on proven and probable mineral reserves and mineral resources.

The Company regularly assesses exploration and development costs for any factors or circumstances that may indicate impairment.

Stock-based compensation

The Company has a share option plan. Compensation expense is recorded when share options are issued to directors, officers or employees under the Company's share option plan, based on the fair value of options granted. Consideration paid by optionees on exercise of an option is recorded in share capital. Stock-based compensation given to outside service providers is recorded at the fair value of consideration received or consideration given, whichever is more readily determinable. The fair value of options granted or consideration given is determined using the Black-Scholes valuation model, with volatility factors and risk-free rates existing at the grant date. The share price at the grant date is considered to be equal to the closing price of the Company's stock on the relevant Stock Exchange on the business day preceding the grant date.

Reclamation and remediation

Asset retirement obligations are recorded in mining properties, plant and equipment and in liabilities at fair value, when incurred. The liability is accreted over time through periodic charges to income. The amount of the liability is subject to remeasurement at each reporting period. These obligations are associated with long-lived assets for which there are a legal obligation to settle under existing or enacting laws, statutes or contracts. The related assets are amortized using the unit of production method.

Key assumptions on which the fair value of the asset retirement obligations is based include the estimated future cash flows, the timing of those cash flows and the credit-adjusted risk-free rate on which the estimated cash flows have been discounted. The actual asset retirement obligation and closure costs may differ significantly, based on future changes in operations, cost of reclamation and closure activities, regulatory requirements and the outcome of legal proceedings.

12. SECURITIES OUTSTANDING

As of August 20, 2019 the Company has issued one class of common shares of which a total of 339,390,784 are outstanding.

On August 20, 2019, the Company had 15,743,000 common share purchase warrants outstanding which are exercisable into one common share at an exercise price of CA\$0.07.

Options granted under the stock option plan of the Company (each, an “Option”) outstanding as of August 20, 2019 totaled 9,049,000 options exercisable into 9,049,000 common shares at exercise prices of CA \$0.02 and CA \$0.05 through August 2023 of which 7,314,000 options are currently exercisable as a result of vesting provisions.

“CEG” is the stock trading symbol for the Company on the CSE and CEGMF for the OTCQB International Symbol on the OTC market.

13. CONTROLS

National Instrument 52-109

Evaluation of disclosure controls and procedures

Public companies are required to perform an evaluation of disclosure controls and procedures annually and to disclose management’s conclusions about the effectiveness of these disclosure controls and procedures in its annual Management’s Discussion and Analysis. The Company has established, and is maintaining, disclosure controls and procedures to provide reasonable assurance that material information relating to the Company is disclosed in annual filings, interim filings or other reports, and is recorded, processed, summarized and reported within the time periods specified as required by securities regulations.

Management has evaluated the effectiveness of the Company’s Disclosure Controls and Procedures as at June 30, 2019 and, given the size of the Company and the involvement at all levels of the Chief Executive Officer and Chief Financial Officer, believes that they are sufficient to provide reasonable assurance that the Company’s disclosures are compliant with securities regulations.

Internal controls over financial reporting

Management of the Company is responsible for evaluating the design of internal control over financial reporting. The Chief Executive Officer and Chief Financial Officer, together with other members of management, after having designed internal controls over financial reporting to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial reporting in accordance with IFRS as of June 30, 2019, have not identified any changes to the Company’s internal control over financial reporting in the latest reporting period that would materially affect, or are reasonably likely to materially affect, the Company’s internal control over financial reporting.
